

PRECISION-FIBER[®] CLOTH

COMBINING THE DURABILITY OF A CLOTH RAG AND THE ABSORBENCY OF A PAPER WIPER, SMART PRECISION-FIBER[®] CLOTH, OR PFC[®] FOR SHORT, PERFORMS WHERE IT MATTERS MOST TO BODYSHOPS. IT'S ONE OF THE MOST IMPRESSIVE ADVANCES IN BODYSHOP RAGS IN YEARS.

What exactly is Precision-Fiber Cloth?

Precision-Fiber Cloth is made to exact specs from super absorbent natural fiber, hydro-entangled with strong polymers. Think of the combination of a cotton rag and a SMART SWP4SB wipe.

SMART PFC Rags are:

- Re-usable - can be rinsed or washed and used 4-6 more times
- Super-absorbent - contain 50% natural fibers entangled with super strong polymers
- Consistent in size - 13.6"x15" per rag. All the same size, unlike boxes of cotton rags.
- High strength
- Low lint
- Made in USA

UNBELIEVABLY STRONG

100% CONSISTENT PIECES
