FROM RESTORATION TO PRESENTATION, CMA PRODUCTS ENSURE
THE JOB IS DONE RIGHT!

CMA Strip-It-Dry : The Original Dry Paint Remover

The original dry automotive paint stripper that revolutionized the industry over 30 years ago and still going strong! This unique patented product is a wet-to-dry paint remover that lets the stripper do the work for you! In the refinishing industry, time is money, so why waste both with physically sanding? Brush on wet; walk away; allow to dry thoroughly; and remove. The dried paint crust makes clean up and disposal easy. If you are going to stock a paint remover, then why not sell the most effective and user friendly remover on the market?

This product isn't a chain-store/retail paint stripper, it's professional strength!
