

MICRO FINISHING SYSTEM

The Simple Solution For Even The Most Serious Refinishing Problems.

Whether the problem is flaws in a freshly painted surface, or dull, aging and oxidized paint; the solution is easy with Eagle's Micro Finishing System. An all-star team that features premium products from the finest abrasive paper to the smoothest polishes and pads. This winning combination can reduce a lot of unnecessary labor and hassle, while effectively solving more paint problems with less products, less time, and even less money.

The Simple Solution...

EAGLE MICRO FINISHING SYSTEM

FEATURES:

- Quality high-tech superfine sanding sheets coated with a uniform, well prepared abrasive grain to assure the best possible finishes.
- Unique Micro-Finishing Compounds that both cut and polish, by utilizing an innovative wetting technology giving the operator time to eliminate sand scratches and buffer swirls without reapplying.
- Specially formulated glazes remove hairline surface scratches while producing a bone dry "breathable" highly lustrous final finish.
- Distinctively designed, durable buffing pads feature quick change convenience with a "graduated concave" surface which encapsulates compounds and glazes.
- Silicone free products are safe to use in all body shop applications.

BENEFITS:

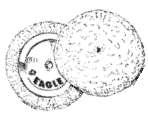

- A complete "one stop" system of the highest quality sandpapers combined with specially engineered buffing and polishing pads and versatile polishes produce dazzling results every time.
- Correcting more paint problems with fewer products in less time, means more profit and less hassle.
- Systematically corrects more defects in all types of painted surfaces including urethane, lacquer, enamel, and clearcoat whether the paint is fresh or aged.
- Single source for the highest quality refinishing products makes it easy for the autobody professional to use the very best in top-coat finishing.

APPLICATIONS:

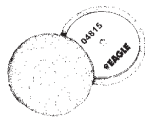

This system is proven effective on everyday common problems:

Paint Type	Problem	Buff	Pad	Glaze	Pad	Hand Glaze
FRESH	Orange Peel, Scratches, Chips or Runs, 1000-2000 Sand Scratches	PASTE COMPOUND (Part # 04020)	100% Pure Lambs Wool Buffing Pad (Part # 04815)	MACHINE GLAZE (Part # 04050)	BLUE Multi-Buff Foam Finishing Pad (Part # 04856)	HAND GLAZE (Part # 04055)
AGED	Acid Rain, Medium-Heavy Oxidation, Chalking	PASTE COMPOUND (Part # 04020)	Yellow Multi-Buff Foam Buffing Pad (Part # 04855)	MACHINE GLAZE (Part # 04050)	BLUE Multi-Buff Foam Finishing Pad (Part # 04856)	HAND GLAZE (Part # 04055)
FRESH	Overspray, Dust Nibs, Minor Scratches, Minor Orange Peel, 1200-1500 Sand Scratches	LIQUID COMPOUND (Part # 04024)	100% Pure Lambs Wool Buffing Pad (Part # 04815)	MACHINE GLAZE (Part # 04050)	BLUE Multi-Buff Foam Finishing Pad (Part # 04856)	HAND GLAZE (Part # 04055)
AGED	Water Spots, Minor Acid Rain, Light to Medium Oxidation, Scratches	LIQUID COMPOUND (Part # 04024)	Yellow Multi-Buff Foam Buffing Pad (Part # 04855)	MACHINE GLAZE (Part # 04050)	BLUE Multi-Buff Foam Finishing Pad (Part # 04856)	HAND GLAZE (Part # 04055)
FRESH	Dull Spots, Minor Dust Nibs, 2000 Grit Sand Scratches			MACHINE GLAZE (Part # 04050)	GRAY Concave Foam Finishing Pad (Part # 04827)	HAND GLAZE (Part # 04055)
AGED	Light Oxidation, Minor Scratches, Hard Water Spots, Overspray			MACHINE GLAZE (Part # 04050)	GRAY Concave Foam Finishing Pad (Part # 04827)	HAND GLAZE (Part # 04055)
