Cascade Automatic Spray Gun Cleaners clean the interior and exterior of spray-guns and pots in under 60 seconds.
Economy Models

**UG1000D**
- Cleans 1 Paint Gun, 1 Pot using wash timer
- 14 Swirl Action Jets
- Tank - 17” W x 13” D x 13” H

**UG2000D**
- Same as UG1000D except cleans 2 guns and 2 pots

**UG3000DA**
- Cleans 2 Paint Gun, 2 Pots
- 14 Swirl Action Jets
- Tank - 17” W x 13” D x 13” H
- Air Purge

Mid-Size Models Features
Automatic and Manual Cleaning

**UG4000E**
- Cleans 2 Paint Guns, 2 Pots.
- 14 Swirl Action Jets.
- Automatic Cleaning features Wash, Air Flush and Clean Rinse (100cc) cycle.
- Built-in Vent for automatic fume extraction.
- Tank - 17” W x 13” D x 13” H.
- Pails included and ready to be connected to a recycler.

**UG7500E - Top of the Line**

The UG7500LE is the UG7500E with the additional capability of testing spray guns after cleaning. Complete with connection for air line.

**UG7500E - Top of the Line**

State of the Art Manual Cleaning
- Wash and rinse spray guns manually above conveniently located large sink.
- Wash spray guns with recirculating solvent using Flow-through brush.
- Clean-rinse using spigot.
- Activate flow using “Hands-free” foot pedal.
- Initiate overhead venting with On-Off valve.
- Wash and rinse hose in under 60 seconds.

**UG3000DA**

On All Models
- Wash cycle is powered by heavy-duty dual diaphragm pump, complete with air pressure regulator and moisture filter.
- Factory Mutual (FM) approved.
- Quick disconnect and suction pipe allows quick removal of pail as shown above.
- Cleaning tanks, suction pipe, delivery tubes and rinse pump are constructed from corrosive resistant stainless steel.

**UG1000D**

Stainless Steel Tank

1. Load the Stainless Steel Tank with dirty guns and pots.
2. Activate the wash, air flush and rinse cycles simply by turning one dial and pressing two buttons. In under 60 seconds, your guns and pots are clean and ready for action.
3. Streams of solvent that swirl from jets and nozzles wash paint from inside and outside of guns and pots.

**The UG7500LE is the UG7500E with the additional capability of testing spray guns after cleaning. Complete with connection for air line.**
UG5500E
Similar to 2 UG4000Es in one frame.
• Cleans 2 Paint Guns, 2 Pots in each tank.
• 2 tanks with independent pumps and controls.
• 14 Swirl Action Jets in each tank.
• Automatic Wash, Air Flush and Clean Rinse in each tank.
• Built-in Vent for automatic fume extraction.
• Each Tank - 17" W x 13" D x 13" H.
• Hose Cleaning: hose is flushed with wash solvent, then air, clean solvent and air again, all in under 60 seconds.
• Manual Clean-rinse in each tank using pedal activated Flow-through Brush
• Complete with pails
• With a PS2 solvent switch, pails for both tanks can be connected to a solvent recycler

UG6500DVM
• Cleans 1 Paint Gun, 1 Pot or most 5 US gallon Pressure Pots
• 1 Large tank
• 28 Swirl Action Jets
• Automatic Cleaning features Wash, Air Flush and Clean Rinse (100cc) cycle
• Manual Rinse using Pedal Activated Flow-Through Brush
• Hose Cleaning: hose is flushed with wash solvent, air, clean solvent and air again, all in less than 60 seconds
• Built-in Vent for automatic fume extraction
• Tank - 15.5" W x 12" D x 20" H

Accessories included with all Gun Cleaners
• Adapter Tube for pressure fed and gravity guns
• Trigger Holding Clamps
• Air Inlet Caps
• Operators Manual
• Filter Pad

Replacement Filter Pads

THE COMPLETE SOLUTION FOR CLEANING SPRAY PAINT GUNS -
Uni-ram Paint Gun Cleaner with Automatic Solvent Recycling

ON-SITE RECYCLING eliminates the Need to Haul Dirty Solvent Off-site for disposal. No manifest to complete.

- Provides clean solvent every day. Clean solvent washes spray guns better and faster.
- Lowers solvent costs.
- Recycles dirty solvent at the press of a button; easy to use.
- Recycler certified to UL standard 2208 and CSA 22.2 No. 30 and No. 88. Approved for use in hazardous locations, Class 1, Division 1; Class 1, Division 2 and non-hazardous locations.
- Continuous monitoring by micro processor. Self diagnostics. Maximum Temperature set point of 200°C (392°F).

Features of the URS500EP2, Solvent Recycler
- Power supply: 120 V, 1,500 W Heater
- Recycles solvent in 4-6 hours
- The 5 in the COMBO model number indicates the URS500EP2 recycler.

Other Models
- COMBO6E40, COMBO6E75 and COMBO456 includes the URS600EP2. This solvent recycler is the same as the URS500EP2 but with 240 V input instead of 120 V.
- COMBO9E40 and COMBO9E75 includes the URS900EP2 solvent recycler. Features include 240 V input, 2,100 W Heater, Digital Display, Maximum Temperature set point of 200°C (392°F).
Health and Safety Features

- Factory Mutual Certified.
- Safety Switch terminates cleaning cycle when lid is raised.
- Automatic cleaning is “Hands Free”. Operator has minimal exposure to Solvent. Solvent Pail is kept inside cabinet.
- Built-in vent available for automatic fume extraction.

Environmentally Friendly

- Wash Solvent is reused until dirty.
- Dirty Solvent can be recycled; Uni-ram offers a family of Solvent Recyclers.

Automatic Cleaning Has Moved Ahead of Cleaning By Hand

- Cleaning Paint Guns is faster.
- Cleaning is “Hands Free”, less contact with solvent.
- Staff enjoy cleaning with Uni-ram Gun Cleaners.

Description: Top Loading Automatic Paint Gun Cleaner

Items Cleaned: Spray Guns (siphon, pressure, gravity feed) and Pots

Power Supply: Compressed air min 85 PSI, 2 cfm

Compatibility: Solvent based or aqueous cleaners
