HANDLING AND APPLICATION

MIXING:

Ready to use.

APPLICATION:

1. Apply Scuff & Clean with a gray or white scuff pad and water.
2. Scrub panel thoroughly until surface is clean and finish is dull.
3. Rinse with water or wipe off with a damp cloth.
4. Allow to fully dry then repair or refinish as outlined per manufacturer’s instructions.

Note:
The use of a white ultrafine pad will eliminate random scratches which may be caused by odd grit lumps on gray pads. This is typically important when refinishing with champagne golds, light silvers and other sensitive colors.

Do not allow to dry on panel.
STORAGE:

Scuff & Clean should be stored in a cool, dry place with adequate ventilation away from heat, sparks and flames. The shelf life for Scuff & Clean is 5 years when stored under normal conditions.

Technical Consultation Service

Our Technical Staff is ready to assist you with any questions. You are invited to take advantage of our extensive experience, laboratory services and trained field service representatives. Call (800) 831-1122 for answers to your questions. Hours of operation are Monday through Thursday 8:00 am until 5:00 pm EST and on Friday 8:00 am until 4:30 pm EST.
