

TECHNICAL BULLETIN

HOT SHINE™ TIRE SPRAY & COATING

Hot shine delivers a high gloss shine in an aerosol or trigger application. Highly water-resistant polymers combined with anit-ozonant technology keeps your tires looking blacker longer, while preventing cracking, browning, and premature aging. The high gloss formula gives your tires a “wet-look” with a dark shine.

Part #: G-12024 – 24 oz
G-13815 – 15 oz

Packaging: 24 oz - 6 per case
15 oz – 6 per case

Features:

- Gives your tires the ultimate High Gloss Wet-Look
- Fast, easy to use adjustable sprayer
- Treats approximately 50 tires per bottle

pH: N/A

Paintable: No

Dilution: RTU (Ready to use)

Application Method: Spray on, wipe off excess

Directions: Apply on a cool, clean, dry tire in a well ventilated area.

- 1) Adjust sprayer to match the width of your tire. Pull nozzle out for a narrow spray, push nozzle in for a wide spray.
- 2) Hold sprayer 4” to 6” away and spray onto tire in a thin, uniform pattern.
- 3) Wipe off excess if needed.

NOTE: Avoid splatter on painted plastic panels. If splatter occurs, remove immediately. Do not apply to tire tread, motorcycle or bicycle seats, or pedals. Store and transport in a secure upright position.

Health rating:

Health:	2
Fire:	4
Reactivity:	0
Specific Hazard:	N/A
